General map

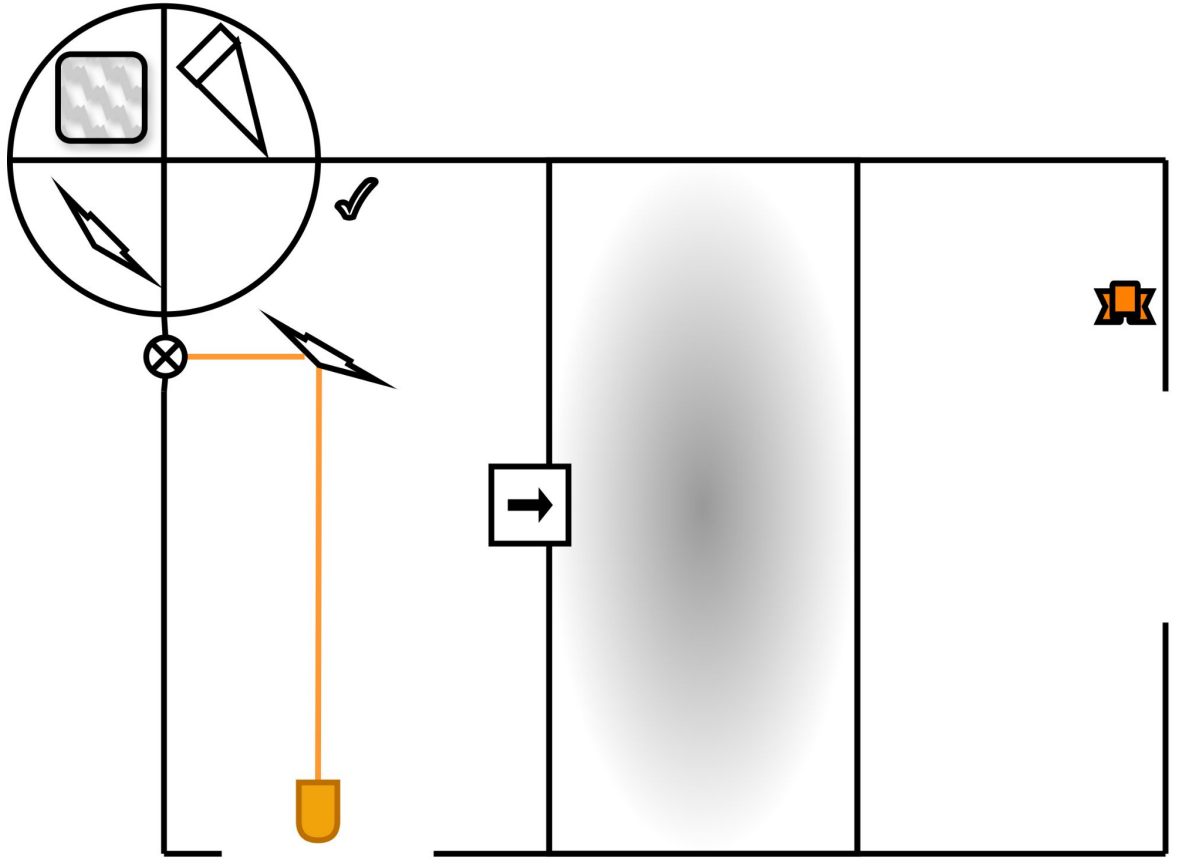

Room 1 Solution

In this room the player must activate the wheel with the laser.

Then pull the lever to rotate the wheel until the plank show up.

Then use it to pass the gap.

Finally push the button on the other side of the gap to open the door to the next room.

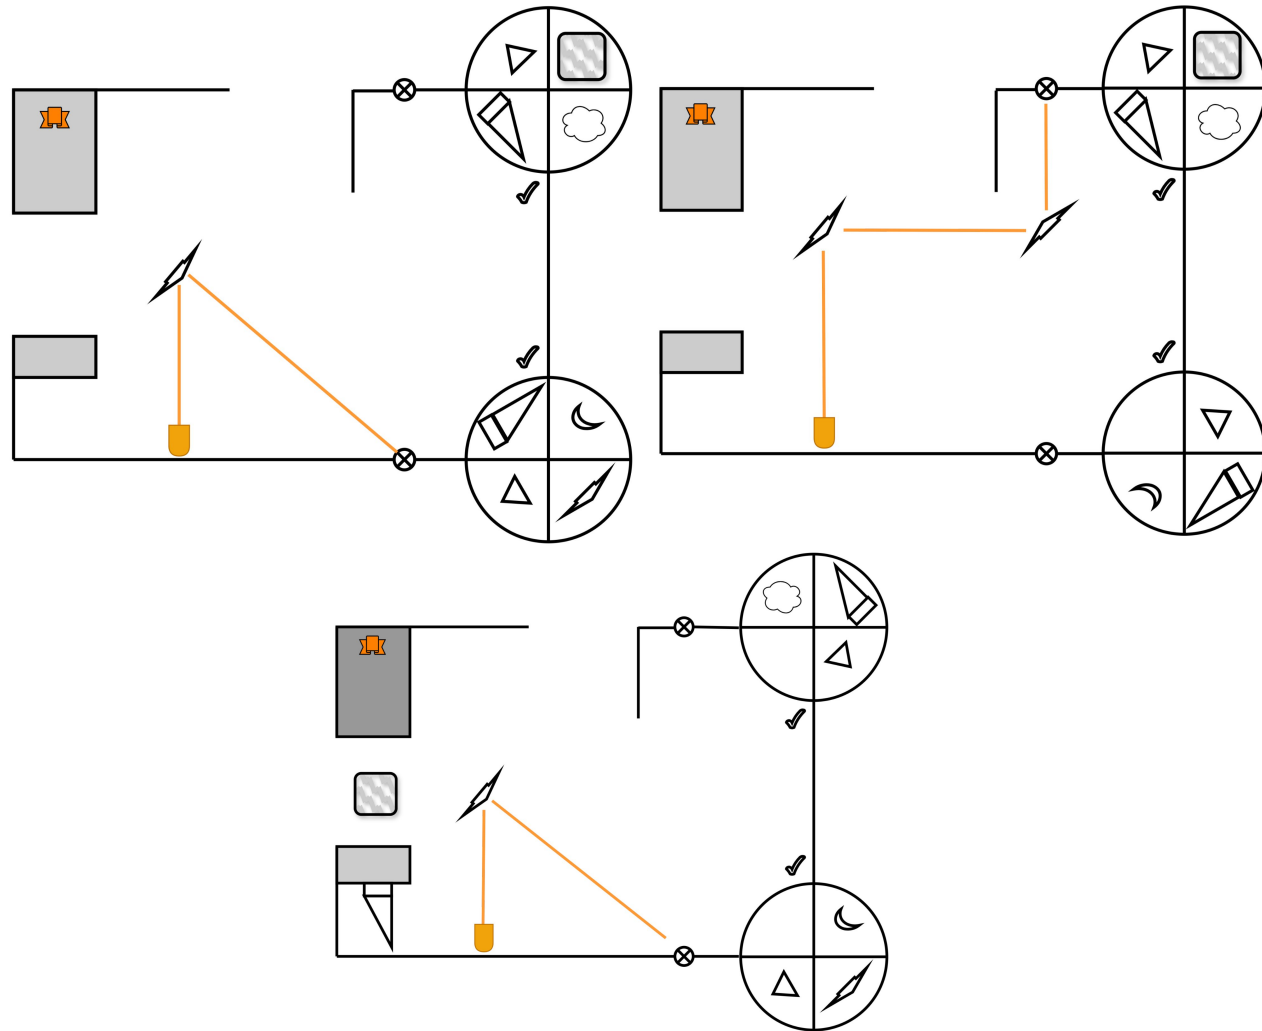

Room 2 Solution

In this room the player first need to rotate the first wheel until the mirror shows up.

Then use the second mirror to rotate the second wheel until the crate appears.

After that they need to take the ramp from the first wheel.

And finally with the crate and the ramp they can reach the button and push it to unlock the path to the next room.

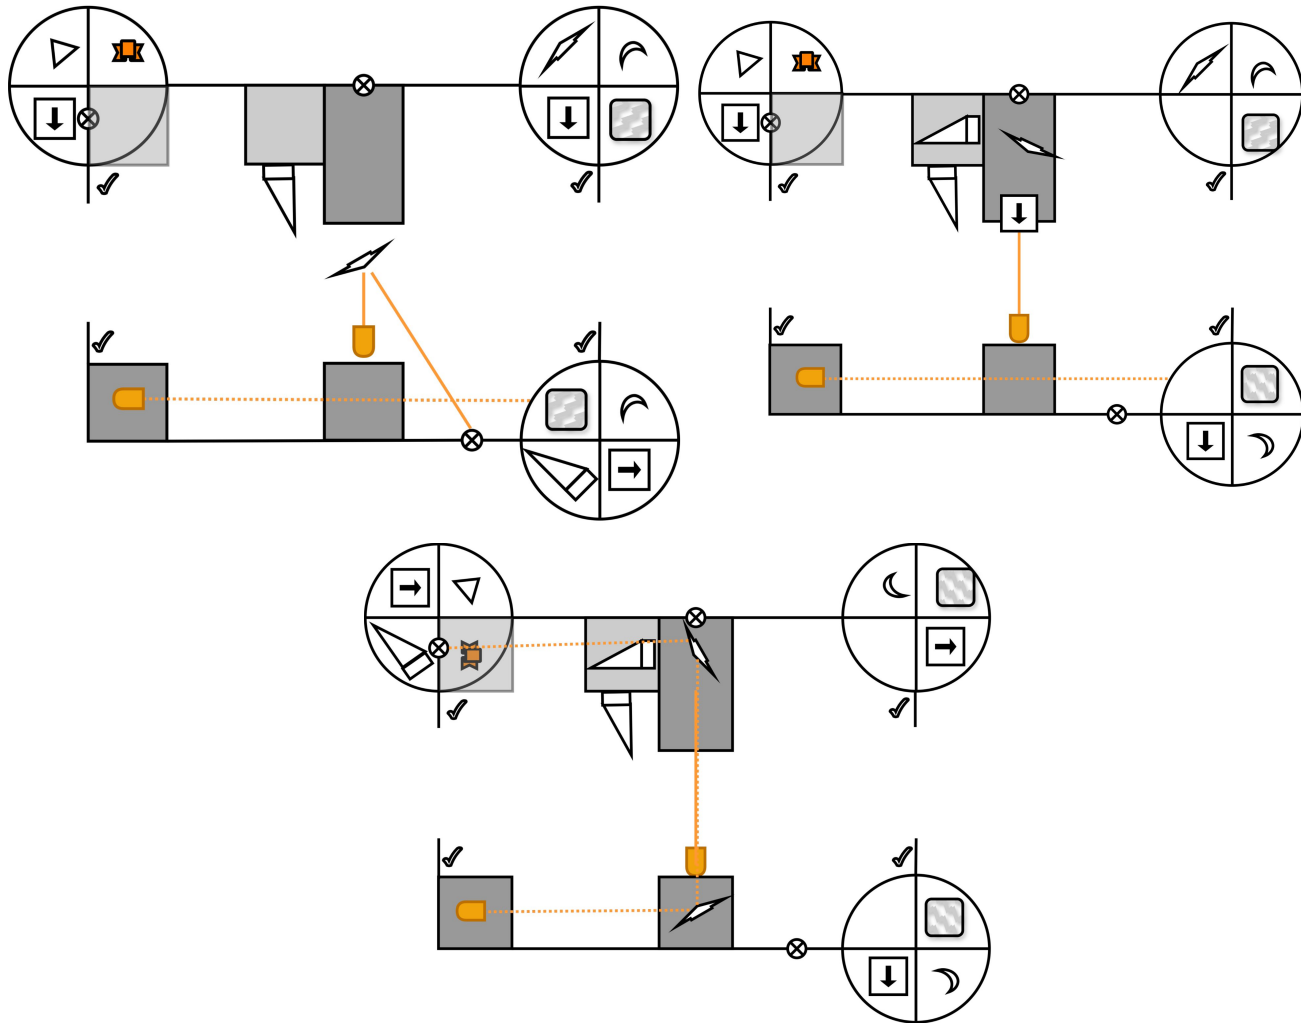

Room 3 Solution

This room has 3 wheel and two lasers, one on the ground and one high up.

The player need to use the laser on the ground to take the ramp from the wheel in the right corner.

With the ramps and the plank they can take the mirror to redirect the higher laser up to unlock the second wheel and from it take the second mirror.

The second mirror will be used to redirect the laser to the endpoint that unlock the button on the third wheel, that when pushed will unlock the next room.

Room 4 Solution

In this room the player must use the fixed rising mirrors to unlock the various wheels.

Each one has a piece that the player must use to reach the summit where the button is.

Once the button is pressed the player can go in reward room.
