Darkness involved

Accessible only in the 4th time slot

Floor 1 - General map

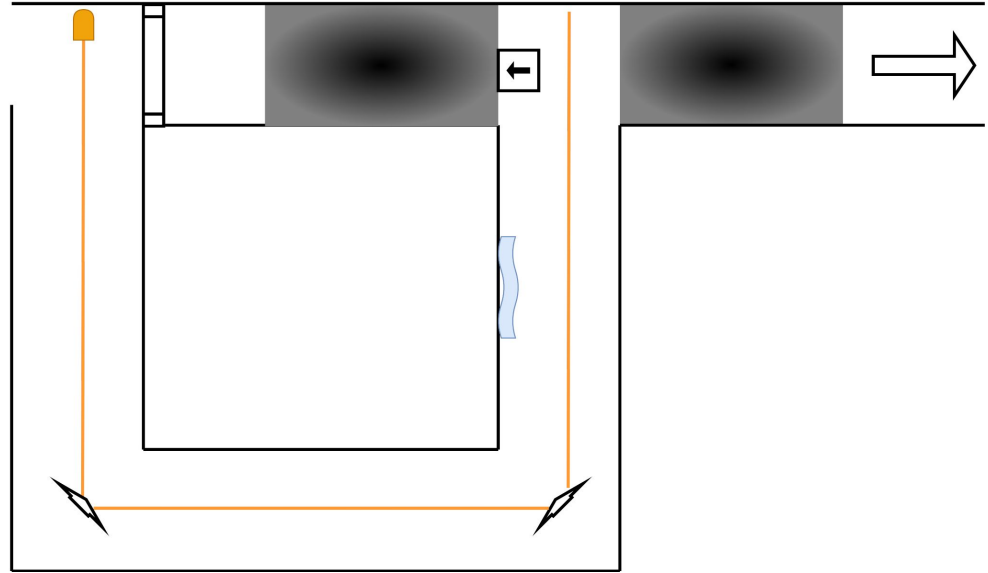

Step 1

Bring the laser in the corridor to clear the way from the darkness. And discover the code for the door.

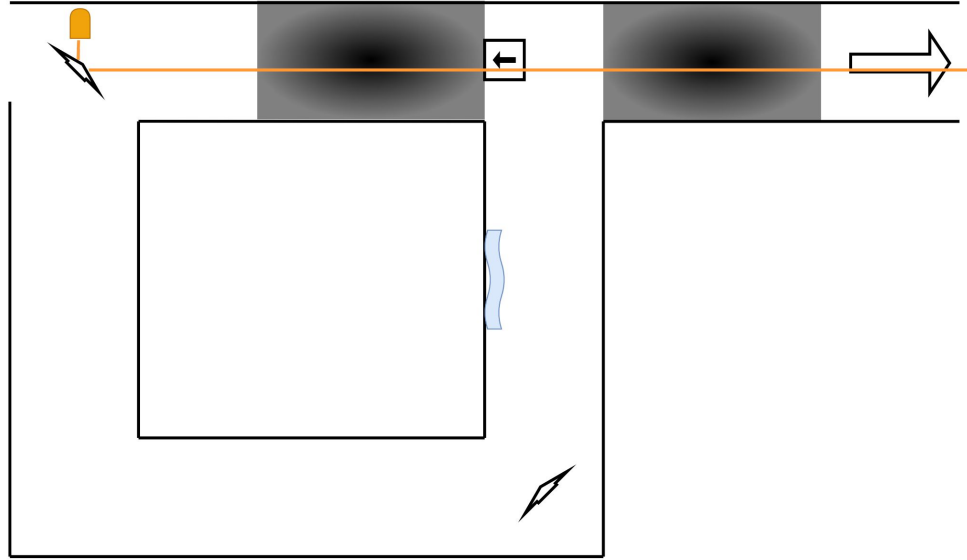

Door code BT Door code BP

[B]	Down	Sol
[Z]	RB	Do
[V]	Left	Fa
[N]	Right	La
[N]	Right	La

Step 2

Knowing the code now the player can open open the door near the entrance. With this door open, the player now can use the plank to pass the gap but first they need to place the laser right or the darkness will swallow them.

Step 3

Now they just need to go through the other gap. If they have placed the plank in the right side of the gap they can use it and move in the next room.
